

# INFORMATION IS POWER!

OUR SOLUTIONS CAN EMPOWER  
YOUR EMPLOYEES

## On average, as much as 24 percent of an information worker's day is spent searching for information\*

Our customized solutions — built on the Microsoft® platform — allow your employees to find the information they need through searching the desktop, corporate network and Internet from a single interface. More importantly, we make it easy to work with and securely share information among co-workers, customers and partners using team-based information portals. Proven benefits help you:

- ◆ **Improve productivity by streamlining processes and connecting people with the right information.**
- ◆ **Reveal information that can empower people to achieve greater business success for your organization.**
- ◆ **Convert information into organizational knowledge by making it easy to share information.**
- ◆ **Increase security by protecting users and controlling data access.**

## TAKE THE NEXT STEP

Call us today at **(717) 474-3386** to learn more about our customized search and information management solutions built on the Microsoft .NET platform. Our experts will design a solution tailored to your organization's exact business needs, so you can:

- ◆ Significantly increase productivity and security.
- ◆ Improve business information and organizational knowledge.
- ◆ Help your organization achieve greater business success.

## WOULD YOU LIKE TO SAVE AS MUCH AS \$14,000 PER EMPLOYEE PER YEAR?

FIND, USE AND SHARE INFORMATION QUICKLY AND SECURELY WITH OUR SEARCH AND INFORMATION MANAGEMENT SOLUTIONS

On average, information worker's spend as much as 24 percent of their time searching for information — which can cost an organization \$14,000 per year per worker for a mid-sized organization.\* If you multiply this by the total number of employees, and you can see what an enormous burden this is to your business' bottom line.

Now there is an easy way for you and your organization to address this problem. Our customized solutions are built on the Microsoft .NET platform, making it fast and secure to find, use and share all types of information. This can help you:

### Drive Operational Excellence

- ◆ Enable your employees to easily share, organize and manage all of the information — so they can effectively apply it to your organization's needs.
- ◆ Streamline everyday processes and enhance relationships to improve your various areas such as supply chain management.

### Significantly Increase Security

- ◆ Protect your sensitive data with search permissions, rights management and privacy controls, as well as document storage, access and distribution rights and policies.
- ◆ Protect users from viruses, phishing and other malicious software.

At MAD Technology Solutions, we specialize in providing customer specific, end-to-end search and information management solutions using the Microsoft platform. You gain all the benefits of a team of IT experts — without the expense of adding more employees.
